## SUMMARY

Computer Science undergraduate at SRM Institute of Science and Technology (CGPA 10.0) with strong C++ and problem-solving skills: 260+ problems solved across LeetCode and GeeksforGeeks, mostly in C++. Built an OS CPU scheduling simulator and full-stack applications in React and Flask. Incoming GIS and Remote Sensing Research Intern at M. S. Swaminathan Research Foundation.

## EDUCATION

**SRM Institute of Science and Technology** – B.Tech, Computer Science and Engineering | CGPA: 10.0 2025 – 2029
**Maharishi Vidya Mandir Senior Secondary School** – Class XII (CBSE) | 93.8% 2024
**SBOA School and Junior College** – Class X (CBSE) | 96% 2022

## TECHNICAL SKILLS

- **Languages:** C++ (primary), Python, JavaScript, C, SQL
- **CS Fundamentals:** Data Structures and Algorithms, Object-Oriented Programming, Operating Systems (CPU Scheduling)
- **Problem Solving:** LeetCode: 177 solved (147 Easy, 28 Medium, 2 Hard) | GeeksforGeeks: 92 solved, Coding Score 112 | CodeChef: 1 Star
- **Web and Databases:** React, Flask, REST APIs, PostgreSQL, MySQL, HTML5, CSS3
- **Tools:** Git, GitHub, pytest, Node.js, VS Code

## PROJECTS

**Process Scheduler – CPU Scheduling Simulator** | *JavaScript, HTML5, CSS3, Node.js* | Live | GitHub
- Implemented 9 scheduling algorithms (FCFS, SJF, SRTF, Priority, Round Robin, HRRN, MLQ, MLFQ), including preemptive variants, with Gantt chart output.
- Computes turnaround, waiting, and response times, compares algorithms side by side, and exports CSV; logic verified with Node.js tests.

**SkillBridge – Student Skills and Opportunities Portal** | *React, Flask, SQLAlchemy, PostgreSQL, JWT* | GitHub
- Co-built a full-stack portal with student, industry, faculty, and institution workspaces; placed 4th at Code2Web BUILD_A_THON.
- Implemented weighted skill-to-job matching and gap analysis with JWT authentication; tested with pytest and Vitest.

**Hushaar AI – Predictive Smart Climate Control** | *React, TypeScript, Tailwind CSS, MQTT* | Live | GitHub
- Led a 3-member team building a dashboard that predicts heatwaves from live weather data and pre-cools rooms over MQTT; deployed on Vercel.

**Responsive Web Projects** | *HTML5, CSS3, JavaScript* | Cakewalk | Cyber Sip | Swiggy | Spotify
- Built Cakewalk and Cyber Sip landing pages plus Swiggy and Spotify UI clones with Flexbox and CSS Grid; hosted on GitHub Pages.

## EXPERIENCE

**Research Intern, GIS and Remote Sensing** | M. S. Swaminathan Research Foundation, Chennai Starting Dec 2026
- Selected for an on-site research internship applying AI/ML techniques to geospatial analysis and climate studies.

**Competitive Programming Member** | GeeksforGeeks Campus Body, SRMIST Ramapuram Sep 2026 – Present
- Competed in 3+ CodeChef contests (1 Star) and solved 92 GeeksforGeeks problems (Coding Score 112) through the chapter's sessions.

**Web Development and Design Intern** | Oasis Infobyte Jun 2026 – Jul 2026
- Built 3 web applications from scratch in HTML, CSS, and JavaScript, implementing interactive user interfaces.

## ACHIEVEMENTS

- **2nd Place, Idearena 2025** (SRMIST): Pitched Voyager, an AI-assisted travel planning concept, in a 3-member team.
- **3rd Place, AXIORA 2026 Ideathon:** Presented Voyager as a technology-driven solution to a real-world travel problem.
- **4th Place, Code2Web BUILD_A_THON** (SRMIST Ramapuram): Special appreciation from the judges for SkillBridge | LinkedIn post
- **THREX Hackathon 2026:** Ranked among the top 84 teams out of 400+ participating teams.
- **Rank-Based Merit Scholarship:** Awarded a 25% merit scholarship worth INR 75,000 per year for academic performance.

## CERTIFICATIONS (NPTEL)

- Programming in Modern C++, IIT Kharagpur | Operating System Fundamentals, IIT Kharagpur – Elite
- The Joy of Computing Using Python, IIT Ropar – Elite + Gold (94%) | Python for Data Science, IIT Madras – Elite + Silver
- Design Thinking: A Primer, IIT Madras – Elite + Silver | All completed May – Nov 2026
